Mr. Brown introduced himself as the applicant’s attorney. He stated they are before the Board seeking three one year extensions on their approval which are permitted under Section 52 of the Municipal Land Use Law. Site Plan Waivers: (continued)  

2. WSP-22-17 – Robert Chinappi – Site Plan Waiver  
Present – Robert Chinappi, applicant.  

Member’s packets contained: 1. A copy of the applicant’s site plan waiver application. 2. Letter dated April 11, 2017 prepared by Rosemary Flaherty, Zoning Officer.  

The applicant is seeking site plan waiver approval in order to convert an existing junkyard to a vehicle storage yard for distribution and transport of repossessed and off-lease vehicles. In addition there will still be a small component of a junkyard. The property is located at 468 Huber Avenue, also known as Block 4901, Lot 27 and 28 in the FD-10 Zoning District.  

Mr. Chinappi was sworn in by Mr. Rocco. Mr. Chinappi stated that the property is currently used as a junkyard with three to five hundred cars are being stored on the site. Mr. Chinappi is proposing to clean up the site and use it to store repossessed and off-lease vehicles which are newer vehicles usually not more than five years old. Transport companies will come to pick up the vehicles. He intends to redo the frontage of the building, move the fence line back, stone the parking lot, power wash and paint the building, and clean up everything that is out there. He will be operating a very small, different type of junkyard than what is out there right now. It will be run mostly online and everything will be stored in the garage. The current owner is supposed to have all the cars, trailers, boats, and other junk out of there before they go to settlement.  

Ms. Flaherty reviewed her letter for the Board. She stated that the property is located in the Pinelands but a Certificate of Filing is not needed since there isn’t any proposed construction and it’s the same use. With regard to well and septic a certification is required from the Board of Health. Mr. Chinappi stated that there isn’t a septic system out there right now but he is having one installed and will receive the necessary permits from the County. He is also having the existing well redone. The business is on two separate lots and it’s the Board’s discretion as to whether they want the lots to be consolidated. The applicant stores repossessed and off-lease vehicles for companies such as Ford, GM, Toyota, etc. The small operation of a junkyard will use a digital inventory system. She stated that in her discussions with Mr. Chinappi he agreed to move the fence back and provide more frontage for a street view. He will provide a new fence with landscaping and buffering so that the business is not visible from the street. With regard to a dumpster, Mr. Chinappi stated that they will use a three yard dumpster which will be on the left hand side of the garage inside of a fenced area. They will not be doing any maintenance or repairs on any of the vehicles. Mr. Chinappi testified that all on and off loading will be done inside the fenced area and not on the public street. Ms. Flaherty asked Mr. Chinappi to testify as to the number of employees. Mr. Chinappi stated he has seven full time drivers, six office staff, two yard staff and one garage staff. The after-hours emergency contact number should be included on the zoning permit application. The hours are Monday through Friday, 9:00 a.m. to 5:00 p.m.; they are closed on the weekend. No resales of any vehicles are permitted without the applicant applying for a use variance. Mr. Chinappi testified that they do not sell vehicles. With regard to signage Mr. Chinappi stated that there will be a façade sign but no street signage is needed. He is also installing a camera system. Ms. Flaherty stated that receipts for all vehicles, trailers, storage units, and tires that are removed should be submitted to the zoning office so that the town is aware of where they were taken. Mr. Chinappi replied that he will let the current owner know the receipts must be provided to the zoning office as a condition of approval. Mr. Chinappi also stated that he will be storing between one hundred and one hundred a fifty vehicles on a rotating basis. A zoning permit and construction permit are required. Mr. Chinappi agreed to comply.  

Mr. Teefy asked if Mr. Chinappi does the repossessions. Mr. Chinappi stated that his employees do repossession in the evening. He commented that all of the trucks used to do the repossessions are made to be quiet; they do not have back up sensors, they have double mufflers, and they use a remote from the inside. There will not be any noise when they bring the cars back to the site.
Site Plan Waivers: (continued)

2. #WSP-22-17 – Robert Chinappi (continued)

Mr. Heffner asked if the applicant will be buffering the view from the neighbor on the right side. Mr. Chinappi replied that he has spoken to the neighbors on both sides. The neighbor on the right side has a buffer along his fence that fills in during the spring and summer and they agreed to clean up the buffer and for him to plant bushes on his side and Mr. Chinappi will plant some on his side. Mr. Heffner also asked Mr. Chinappi if he would install a concrete apron in front of the access drive since so many trucks will be accessing that driveway and the stone will give way and the road will deteriorate in that area. Mr. Chinappi was in agreement to provide a concrete apron at the gated entrance. Mr. O’Brien informed Mr. Chinappi about the wires that run across the road on the telephone poles being a little low and he should be aware since he will have car carriers accessing the road to his site. Mr. Chinappi replied that he is aware of the height of the wires. Mr. O’Brien also commented that the Township will provide him with a can for recycling that he can put out at the road once a week with any recyclables. Mr. Cooper asked if Mr. Chinappi knows of any soil contamination since the property has been being used as a junkyard. Mr. Chinappi stated that a Phase I Environmental Assessment has been completed and no issues were found.

Motion passed to open the application to the public. There being none, motion passed to close the application to the public.

The town recently appointed Ernie Carbone as a temporary clerk to get the program started. They received an RFP today which will allow them to hire an administrator for the program. They are hoping to get it started this summer.
