she is working alongside the Director of Real Estate, Angie Matese and the Economic Development Consultant, Shannon Morgan-Leone; together, they are working with businesses that are interested in coming to town, taking them throughout the Township and showing them available sites to help bring prospective businesses in. Cncl. Falcone explained that the spotlights on businesses are chosen from the attendees and members of the Williamstown Chamber of Commerce. She invited everyone to check out their website at www.williamstownchamberofcommerce.org for more information. Their main focus is the business platform here in town, as it is the pillar of the community.

Cncl. Marino attended the MUA meeting on Wednesday, July 17th, where they discussed refinancing their current bonds which will save them approximately \$62,000 per year over the next nine years. He congratulated them on always looking for ways to save money and work efficiently. He also noted that the MUA has approved their energy audit. They are going to have an engineering firm work along with their superintendent for their energy audit. **Cncl. Marino** reported that the Williamstown Fire Department attended this evening's Work Session and presented their design plans and that Cecil Fire Department will present their design plans at the August meeting. He met with the Fire Departments last week and forwarded Cncl. Wolfe and Cncl. Pres. Garbowski their plans and preliminary pricing. Cncl. Marino thanked Christine Feggans for a job well done with the Spotlight on Business.

Cncl. O'Reilly spoke regarding the Energy Audit. He said that the Township is in the audit phase, the School Board has already completed their audit and the MUA will be submitting their audit. The County Planning Board has the Dog Park on their upcoming agenda for final approvals. The Mayor spoke regarding the project at the intersection of Route 322 and Fries Mill Road. He is pleased to report that because of the efforts of Senator Madden and Senator Sweeney, they have found money to complete the project. The one problem they have is that they are waiting to hear from the County Engineer to convene a meeting to be able to take point on the project and are hoping to hear from him soon. Mayor DiLucia reported that he has completed contract negotiations with Local 360, which represents the majority of the Township employees approved by the Local 360 members. It is a four-year contract that will expire December 31, 2021, which gives the ability to have stable economics going forward and was also approved by Council earlier this evening. He thanked the negotiating committee for recognizing the tax payers and making sure that they were not overly aggressive in their expectations, they worked hard and made major compromises. He noted, he still has to complete the contracts with the Monroe Township Supervisors Association, Chief of Police, Deputy Chief and two Captains, which he is hopeful to complete within the next two weeks. Mayor DiLucia spoke regarding the Energy Conversation project, saying that they have met with the School Board and the major portion of the meeting was discussing which type of financing they would like to proceed with. He noted that earlier this evening Council passed the Resolution regarding a Shared Services Agreement with the MUA, which has unofficially been taking place this year. He thanked Solicitor Trimble for all of his hard work and diligent efforts. Mayor DiLucia said, he is very excited about being selected to be one of the judges in the best pizza in town contest.

He has incurred over \$2,000 worth of damages to his property on four different occasions involving his neighbor's tree. Mr. Tracy stated that he had a new driveway put in which cost him \$7,000 and following that, his neighbor planted four flowering pear trees in a row, less than ten feet apart, less

than eight feet from his driveway, in the front part of his property. The main concern he has with the trees is that they are going to grow to be approximately twenty feet high and thirty feet wide and they will block his view to back out of his driveway. His interpretation of the Township Codes, that a fence placed in the front of a property can only be four feet high and these trees which are acting as a fence will be well over four feet high as they grow and mature. He asked Council to address the problem before it becomes a bigger problem. **Cncl. Marino** will have the Director of Code Enforcement, Mr. Manfredi, look into this.

With no one else wishing to speak, **Cncl. Wolfe** made a motion to close the General Public Discussion. The motion was seconded by **Cncl. Marino** and unanimously approved by all members of Council in attendance.
