

1. Will there be changes to the submission due to COVID-19, such as due date or electronic submissions being acceptable, etc.?

Proposals are due by 10:00AM on April 22, 2020. Given the COVID-19 crisis, submissions via email is acceptable via PDF format, submitted to the Municipal Clerk, Aileen Chiselko at [achiselko@monroetownshipnj.org](mailto:achiselko@monroetownshipnj.org).

2. Additionally, we noticed that the proposal does not stipulate that:  
The Bidder shall be a firm classified by the State of New Jersey - Division of Property Management and Construction for the following classification(s):  
Prime Contractor  
C035 - Solar Energy Systems  
and have subcontractor for the following classification of work:  
Subcontractor:  
C047 - Electrical  
Pursuant to N.J.S.A. 18A:18A-26, the Bidder shall be in possession of the required DPMC Classification for the specified work in all of the required categories.

We have these certifications but are concerned there are other vendors that will submit proposals that do not have these qualifications, so are wondering if this will affect the evaluation.

All qualifications, certifications and/or classifications will be taken into consideration when evaluating under this RFPS criteria. This statute is not applicable since this is not a formal bid.
