

1. *(Regarding notarizing signatures)* Will the Twp. allow any other proof of signature?

For now, given COVID-19, the Township will waive the notary requirement so long as all signatures are certified by the vendor's attorney and their attorney issues a separate certification in support of their client's signature on all documents.

2. *(Regarding corporate seal)* I'm being told the seal is not available with facility access issues. Is there a potential work around here too?

This is an unprecedented issue and at this point we would suggest that the vendor have their attorney address under a certification.
