Dawn M. Farrell, Administrative Clerk
Township of Franklin Planning Board
125 Virginia Avenue
Williamstown, New Jersey 08094

RE: 2174 S. Black Horse Pike

Dear Ms. Farrell,

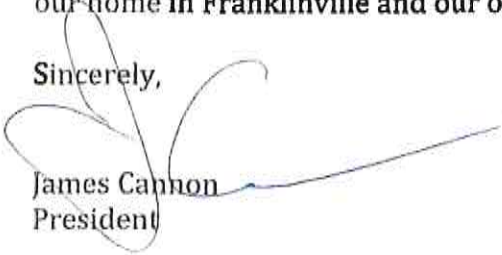

Allied Painting, Inc. is an industrial painting company specializing in bridges, overpasses tanks and lead abatement. Allied has been in business for over 27 years and is one of the largest industrial painting companies on the East Coast. The office currently operates out of Cherry Hill and the staff consists of eight office personnel, two estimators and four mechanics all overseen daily by myself and my wife, Sandy Cannon. Allied's office hours are Monday through Friday from 7:00 am to 5:00 pm.

Allied's work is performed at the physical job sites and not at its corporate location. Most of Allied's work is under the direction of NJDOT, DelDOT, PennDOT and MassDOT and multiple municipalities. Our work is performed under state and municipal regulations and guidelines including but not limited to NJDEP, OSHA and SSPC. One of Allied's highest priorities is the safety of its employees and job site surroundings.

The proposed 32,000 square foot building will be utilized for office, repair shop, metal fabrication and equipment storage and the 16,000 square foot building will be utilized for storage.

At this time, Allied has outgrown its current location and we're looking to relocate closer to our home in Franklinville and our other business in Monroe Township.

Sincerely,

James Cannon
President

JC/mm
