This Municipal Body will hear and decide appeals, where it is alleged by an applicant that there is an error in any order, requirement, decision or refusal made by an administrative officer, based upon or made in the enforcement of the Zoning Ordinance. Another responsibility of this body is the interpretation of the Zoning Map or Ordinance.

The “Adjustments” or variances granted by this body are based upon the review of the application or appeal relating to a specific property, when strict application of the regulations will impose difficulties or hardship to the applicant, through no fault of his own. No variance or other relief may be granted unless it can be so done without substantial detriment to the public good and will not substantially impair the intent and purpose of the Zone Plan and Zoning Ordinance.

HOUSING CODE ENFORCEMENT

The Housing Department is under the Code Enforcement Department. The Housing Official enforces the Monroe Township Housing Code; Chapter 162. The Housing Official and/or his Director or designee conduct housing inspections and issue certificate to occupy or a temporary certificate to occupy, and all change of ownership by affidavit on all residential properties within the Township. These inspections are broken down into two categories, resales, which is the change of ownership certificate and affidavit for temporary certificate and rental certificates which are the annual rental inspection of all rental properties within the Township, as well as the change of tenant inspection and certificates on rental properties. The Housing Official and/or his Director or designee investigate illegal rentals and resale complaints from the public and take enforcement action when necessary. Please contact us at (856) 728-9800 Ext. 296 with any questions.

ZONING OFFICE

The Zoning Officer is the Department who enforces the Monroe Township Land Use Code and reports to the Director of Code Enforcement.

The purpose of Zoning is to ensure that any proposed use, construction, or alteration is allowed in the zone and will be located within the required setbacks from the property lines as required by the Monroe Township Land Development Ordinance. Specifically, this code regulates the setbacks and permitting process for principal structures, additions, decks, gazebos, pools, hot tubs, sheds, basketball courts, patios, fencing and all other accessory uses and structures.

Any resident contemplating any change or addition to his/her property or home should contact the Zoning Office for information on general regulations in their zoning district. By obtaining the required permits, a resident will avoid creating a violation that may require alterations to, or relocation of, the new construction to abate the violation. If you are selling your home, the presence of a violation can delay your settlement. If you cannot meet the zoning requirements, it may be possible to obtain a variance.

The Zoning Office urges all residents to inspect and maintain their properties.

The Zoning Office also handles permits for clothing bins, and dumpsters.

Please contact our office to correct any structures that have been built without obtaining the proper permits or to make sure you have received all final certificates of conformance for those structures that have received permits. (Construction permits and approvals may also be required depending on the type of structure or alteration being built.)
